Renault KANGOO EXPRESS & Z.E.

KANGOO

KANGOO

KANGOO ZE

Completely adapted to your needs

Kangoo Express offers a full range, including: three lengths (Compact, Express and Maxi Box Van or Crew Cab), together with various options including three front seats. Kangoo Z.E., meanwhile, comes in two lengths and 2- and 5-seater versions. There is bound to be a Kangoo Express to suit you!

Tailor-made

Kangoo Express has everything it needs to better meet to your professional requirements. Three lengths, three equipment levels, a wide range of economical engines and an array of possible configurations – panelled or glazed, with or without sliding side doors, asymmetrical rear doors or tailgate. There is bound to be a Kangoo Express to suit you!

High-tech tools

A true mobile office, Kangoo is equipped with the most cutting-edge technologies. The Renault R-Link connected navigation system, Bluetooth® connectivity and the rear-view camera are all tools to facilitate work and life on-board...

Simplified delivery

At the core of your daily concerns is the efficiency of your journeys and deliveries. Kangoo is equipped with high performance navigation technology: locate your destination accurately with Renault R-Link, check your driving range, choose the best itinerary avoiding traffic jams using connected services and give notice of your arrival in hands-free mode. The sliding side doors and the 180°-opening asymmetrical rear doors ensure easy access for loading. With Kangoo Express, you can load up to 3.5 m³* of goods and obtain a payload of 650 kg as standard and up to 800 kg as an option. Open, load, locate, and unload... Efficient deliveries guaranteed.

* With pivoting partition and passenger seat folded down.

Efficiency increased tenfold

Extended by 38 cm, the Box Van version of Kangoo Express Maxi and Kangoo Maxi Z.E. allow you to transport items up to 2.89 m* in length. Need to transport a crew and equipment in a compact van? Kangoo Maxi Crew Cab rises to the challenge thanks to its unrivalled modular layout! The bench seat folds down in one single motion to form a flat floor, and the wire-mesh partition can be positioned behind the driver's seat to allow you to load items up to 2 m long and 3.6 m³. So, you no longer have to choose between transporting people and carrying goods – you can travel with a team of five and still transport 2.4 m³ in effective volume. Kangoo Express Maxi Box Van gives you a payload of 800 kg and an effective volume of 4.6 m³. Pretty efficient!

* With pivoting partition and passenger seat folded down.

Controlled activity

Your company's vehicle fleet is an investment that must be managed carefully and sensibly. With three lengths and multiple body conversions and configurations, the Kangoo range offers every possible solution to build a standardised fleet with a mix of fuel-powered and electric vehicles. Thanks to the My Z.E. Inter@ctive service pack, you can programme and assess the charge on each of your vehicles and be alerted on your computer or smartphone to their charge status, remaining time and available driving range – a great way to optimise your budget by scheduling charging at off-peak times. With its driving assistance systems, Kangoo also allows you to reduce your fuel consumption and improve your driving range.

Innovative practicality

Kangoo Z.E. is a means of conveying your brand image, and is ahead of its time in more ways than one. It helps you greatly reduce your company's environmental footprint. It embodies your environmentally responsible commitment on a daily basis. Kangoo Express Maxi and Kangoo Maxi Z.E. offer generous loading capacities. They can take a payload of up to 800 kg* in an effective volume of up to 4.6 m³. With its 180°-opening rear doors and a loading length of up to 2.89 m, Kangoo opens up new possibilities.

* 650 kg for Kangoo Maxi Z.E.

Optimal loading

Versatility: a source of pride

One day, you might need to carry people, the next day goods... Kangoo meets your needs. It is available with three front seats*: one for the driver and a two-seat bench with a storage compartment underneath offering a maximum capacity of 10 litres. The backrests of the two-seat bench fold down separately to form a shelf or allow you to load long items.

You can also opt for Kangoo Maxi Crew Cab, which allows you to transport five people with an effective length of 2 m when the bench is folded down. Finally, the hinged rear roof flap gives you even more height to play with.

Big on loading space

In the passenger compartment, multiple storage solutions allow you to make the most of the available space.

The dashboard storage space is easy to access and can be used to hold your A4 documents. For more cumbersome items, you can use the roof panel rack, the glovebox or the central armrest (depending on the version), or even the space under the two-seat bench in the front.

The loading area offers generous volume that extends from 2.3 m³ to 4.6 m³ depending on the version. A range of equipment is available to meet your needs: various types of partitions (solid, wire-mesh, tubular) and fittings, floor and/or side protectors, lashing systems, panelled and glazed opening elements and an ingenious sliding hinged rear roof flap. The payload, meanwhile, is 500 kg to 800 kg** depending on the version and configuration.

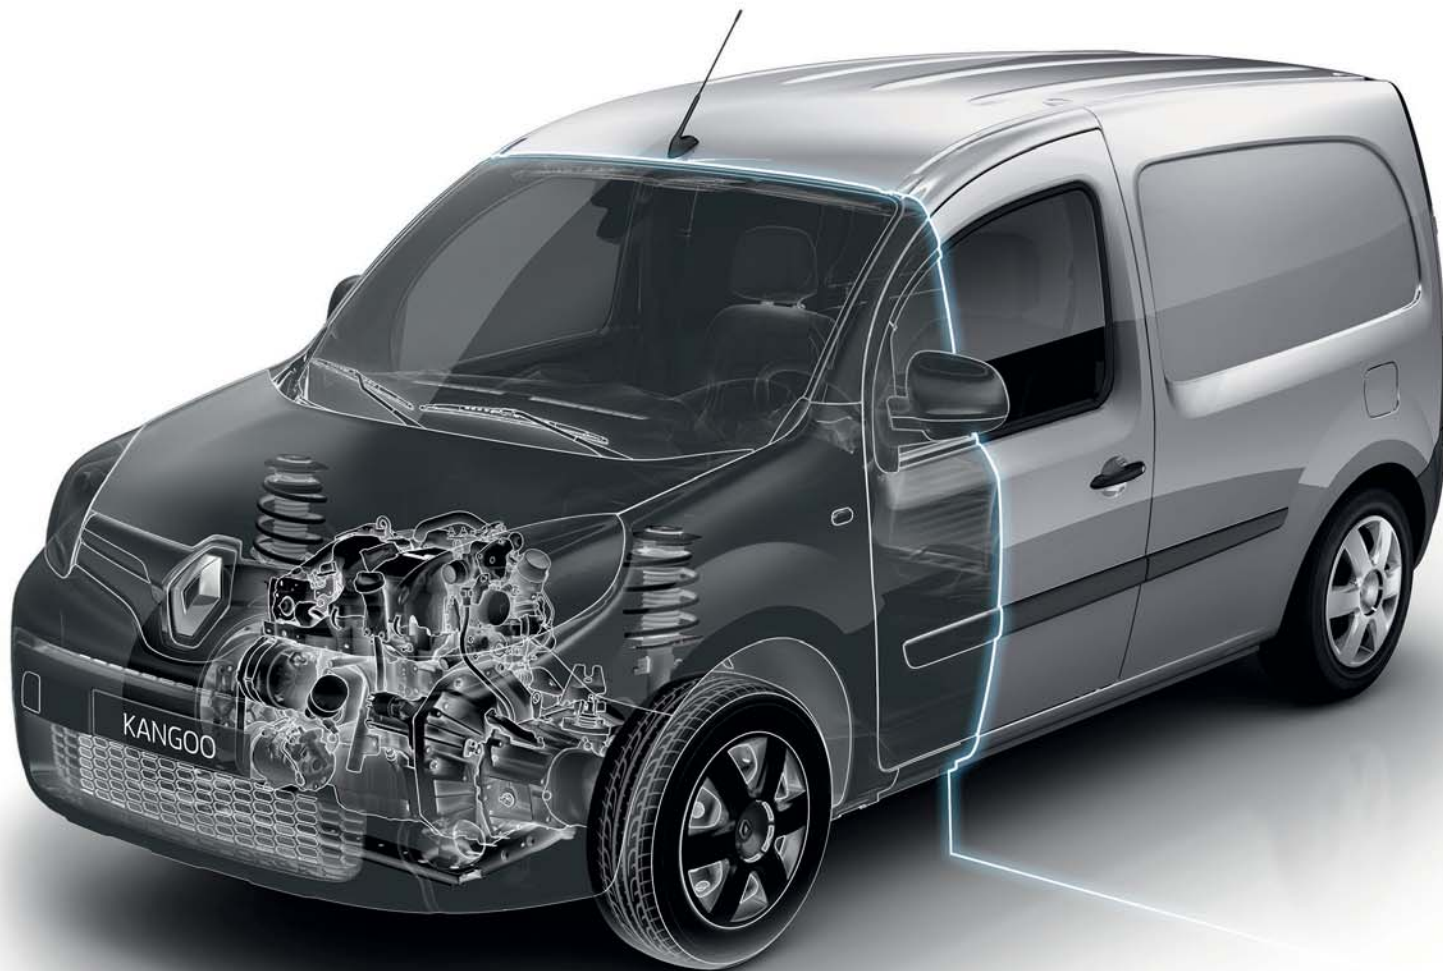

Superbly accessible

No effort is required to activate the sliding side doors or free up your loading space by opening the asymmetrical rear doors to 180°, so loading is a piece of cake. The low loading sill, 55 cm to 61 cm from the floor, makes it easy to handle heavy loads. Multiple openings, a sliding hinged rear roof flap, panelled or glazed rear and/or side doors and better use of the effective volume...

Kangoo meets your needs perfectly, every time.

* Option not available on Kangoo Z.E. range

** 800 kg payload not available on Kangoo Z.E.

Driving economy

The petrol and diesel engines on Kangoo Express are packed with innovations to enhance their performance and economy. Thanks to the combination of technological features designed to improve energy efficiency, they offer excellent fuel consumption without compromising on driving pleasure.

TCe 115 EDC petrol engine: Comfort, fuel economy and responsiveness

The EDC automatic gearbox with dual-clutch transmission combines the comfort of an automatic gearbox with the responsiveness and fuel economy of a manual gearbox. Delivering 115 hp at 2,000 rpm, the TCe 115 EDC engine offers a driving experience that is both dynamic and enjoyable thanks to the EDC transmission. Achieving fuel consumption of just 6.4 l/100 km* and CO₂ emissions of 144g/km, you can take full advantage of all the driving pleasure the TCe 115 EDC has to offer.

Energy TCe 115 petrol engine High performance and power

The Energy TCe 115 is a 1.2 litre (1,197 cc) turbo, 4 cylinder and 16 valve direct injection engine. With its aluminium block, it offers excellent response and acceleration. It delivers 115 horsepower and offers excellent maximum torque of 190 Nm available from 2,000 to 4,000 rpm, of which 90% is available from 1,500 rpm. Its 100 hp per litre is absolutely unheard of on a 1.2 litre petrol engine. In achieving these performance levels, the Energy TCe 115 engine remains economical, with fuel consumption of just 6.2l/100 km* and CO₂ emissions of 140g/km.

Energy dCi 75 & 90 Economical and efficient

The Energy dCi 75 and dCi 90 engines are designed for professional use. The new energy recovery and engine shut-off (Stop & Start) technologies give them fuel consumption of just 4.3 l/100 km* with CO₂ emissions limited to 112 g/km. This consumption level, combined with an oil change interval increased to up to 40,000 km or 2 years**, helps keep maintenance costs down.

Energy dCi 110 Comfort and responsiveness

The Energy dCi 110 engine delivers 110 hp at 4,000 rpm – ideal for heavy loads and long journeys. The high torque of 260 Nm is available from 1,750 rpm, making it especially suitable for starting with a full load and obtaining response and acceleration in all conditions. In terms of fuel consumption, it boasts a mere 4.4 l/100 km* on the combined cycle, with CO₂ emissions of 115 g/km.

* Official consumption and emissions according to applicable regulations (Euro 6 engine, Kangoo Express, 15" wheels, standard payload).

** Whichever comes first.

Engine shown: Energy dCi 90

Eco mode

Activated by a simple press of a button, it helps you reduce the fuel consumption and CO₂ emissions of your Kangoo Express, depending on your driving style, and extend the driving range of your Kangoo Z.E. by up to 10%. As an option, Eco mode can also be permanently activated so that the button need no longer be pressed.

Electric power

Control your driving range

Kangoo Z.E. gives an average driving range of 80 km in winter and 125 km in the warmer months. This range varies according to your speed, the evenness of the roads you use, your driving style and how much you use the heating and air conditioning. Kangoo Z.E. offers you various tools to help maximise your driving radius. First among them is 'Eco' mode, which limits dynamic performance in favour of extending your driving range. Secondly, remember that the battery recharges each time you decelerate, i.e. when you lift your foot off the accelerator pedal (this is displayed on the econometer on the instrument panel). Next, the preheating function allows you to enjoy optimum thermal comfort whilst preserving your battery's resources by programming the heating or ventilation of your vehicle. This system is even more efficient when your vehicle is equipped with a full partition separating the passenger compartment from the loading area.

Easy recharging

To recharge your batteries, simply plug your vehicle into a charging terminal in the street, at work or at home for six to nine hours (for a full charge). Your Kangoo Z.E. can also be connected to a Green'Up Access socket (7–10h charging time) or a domestic socket (10–12 h). You can use the Renault R-Link* connected navigation system to locate terminals within your driving range.

Enjoy unique driving pleasure

The all-electric, zero-daily-noise, zero-emission** Kangoo Z.E. offers our business customers a unique experience: relaxing silence whilst driving. At the wheel, the acceleration is firm, benefiting from maximum torque of 226 Nm delivered instantly. The automatic transmission with no gear changes ensures that Kangoo Z.E. gives you a smooth, carefree drive.

Enjoy your Kangoo Z.E. to the full

The battery lease system gives you the assurance of having a battery in perfect working order available at all times, with sufficient charge, always above 75% of its initial capacity. In the event of a power breakdown, the assistance service is included. With the My Z.E. Inter@ctive pack, you can start the charging process remotely, from your computer, if the vehicle is connected to a terminal. This is a good way to optimise your budget by scheduling charging for off-peak hours. What's more, when you go electric, you enjoy lower maintenance costs than for a fuel-powered vehicle!

* Optional.

** During use, excluding wear and tear parts.

1. Charging socket
2. Electric motor
3. Lithium-ion battery

Connected efficiency

An integrated multimedia system, Renault R-Link is the essential tool for professionals who want to stay connected in all circumstances. Among other features, Renault R-Link offers real-time navigation, connected services, hands-free telephone calls, voice commands and eco-scoring to optimise your consumption – all designed to keep your working day better organised and under control. Renault R-Link displays your driving range to plan your Kangoo Z.E. journeys with complete peace of mind.

Safety for all

Renault's responsible vision involves providing you and your employees with the most modern and effective passive and active safety systems, regardless of the equipment level of your vehicle. With the Electronic Stability Control (ESC) system, which combines Extended Grip and Hill Start Assist, Kangoo Express goes even further and provides its professional users with the highest level of safety.

Protection of the vehicle's occupants

Front airbags, side head-/chest-level airbags, programmed restraint seat belts with pretensioners and force limiters (front seats) and an anti-submarining system (driver and front passenger seats, except with folding seat and two-seat front bench).

Electronic Stability Control (ESC)

This new generation combines the traction control system (ASR) and Understeer Control Logic (UCL) with Extended Grip and Hill Start Assist.

Extended Grip: Driving assistance

Paired with ESC, Extended Grip is a traction control function to help you in difficult driving conditions (sand, mud, snow). When Extended Grip is active, a green Extended Grip icon is displayed on the instrument panel with the message 'Loose ground' for 15 seconds.

Hill Start Assist

Hill Start Assist makes it easy to start on a slope.

Rear-view camera

To facilitate parking manoeuvres, the rear-view camera provides full and excellent visibility of the rear area. The images are sent to the interior rear-view mirror or the navigation screen for models with R-Link Navigation. The camera is always linked to the rear parking sensor for optimum performance.

Features

KANGOO EXPRESS GÉNÉRIQUE

- Driver airbag
- Protection bars behind the driver
- Central door locking
- Sliding centre storage console between front seats
- Variable electronic power steering
- Extended Grip and Hill Start Assist linked to ESC
- Anti-lock Braking System (ABS) + Emergency Brake Assist (EBA) + Retrograding engine torque regulation (MSR)
- Front and rear disc brakes (rear drums for Kangoo Express 75 and 90 hp diesel engines and Kangoo Express Compact)
- Panelled asymmetrical rear doors
- Emergency spare wheel
- Height-adjustable steering wheel

Options

- Passenger airbag
- Driver and front passenger side airbags
- Cigarette lighter and portable ashtray
- 3 front seats (except Maxi Combi and Crew Cab versions)
- Manual heating and air conditioning system
- Pivoting partition and passenger seat with flat floor fold-down function
- Hinged rear roof flap
- On-board computer
- Metallic paint
- Non-slip wooden floor
- Wooden floor and side trims
- R-Plug&Radio with Bluetooth® and Plug&Music, with steering wheel controls and integrated display
- Plastic-coated fabric upholstery
- Height-adjustable driver's seat

KANGOO EXPRESS CONFORT (GÉNÉRIQUE +)

- Front electric windows for driver and passenger
- Panelled sliding right side door
- R-Plug&Radio with Bluetooth® and Plug&Music (USB port and jack) with steering wheel controls and integrated display
- Storage rack above front seats
- Electrically operated door mirrors
- Height-adjustable driver's seat

Options

- Passenger airbag
- Driver and front passenger side airbags
- Cigarette lighter and portable ashtray
- 3 front seats (except Maxi Combi and Crew Cab versions)
- Rear-view camera
- Increased payload (except Compact and Maxi)
- Pivoting partition and passenger seat with flat floor fold-down function
- Full panelled or glazed partition
- Hinged rear roof flap
- On-board computer

- Metallic paint
- Non-slip wooden floor
- Wooden floor and side trims
- Right side door with fixed window
- Left side door with fixed window
- Glazed asymmetrical rear doors
- R-Plug&Radio with Bluetooth® and Plug&Music, with CD player, steering wheel controls and integrated display
- Cruise control/speed limiter
- Plastic-coated fabric upholstery
- Rubber mat in loading area

Features

KANGOO EXPRESS GRAND CONFORT (CONFORT +)

- Full glazing (side and rear)
- Manual heating and air conditioning system
- Full panelled partition
- Front electric windows for driver and passenger, one-touch down and up on driver's side
- Central storage module / armrest between the front seats
- On-board computer
- Cruise control and speed limiter
- Rubber floor mat in loading area

Options

- Passenger airbag
- Driver and front passenger side airbags
- Cigarette lighter and portable ashtray
- 3 front seats (except Maxi Combi and Crew Cab versions)
- Rear-view camera
- Increased payload (except Compact and Maxi)
- Climate control
- Pivoting partition and passenger seat with flat floor fold-down function
- Full glazed partition
- Hinged rear roof flap
- Metallic paint

- Non-slip wooden floor
- Wooden floor and side trims
- Right side door with fixed window
- Left side door, panelled or with fixed window
- Glazed asymmetrical rear doors
- R-Plug&Radio with Bluetooth® and Plug&Music, with CD player, steering wheel controls and integrated display
- Plastic-coated fabric upholstery
- R-Link Evolution multimedia system with integrated online navigation using voice control and a special CD/radio

KANGOO Z.E. & MAXI Z.E.

KANGOO Z.E.

- ABS (Anti-lock Braking System) and EBA (Emergency Brake Assist)
- Driver airbag
- Special Z.E. instrument panel with energy gauge, energy saver and special computer
- Passenger compartment preconditioning
- Eco Mode
- Standard charging cable (4 m)
- Protection bars behind the driver
- Heated electric door mirrors
- Panelled asymmetrical rear doors (180° opening)
- 15" wheels with Brigantin hubcaps
- Black headlight masks
- Emergency spare wheel

KANGOO MAXI Z.E. = KANGOO Z.E. +

- Panelled sliding right side door
- 1/3-2/3 rear bench seat (5-seater version) or 1/1 rear bench seat, collapsible and foldable to leave a flat floor, with protective grille (Crew Cab version)
- Tyre inflation kit (5-seater version)

KANGOO Z.E. & MAXI Z.E. options

- Stylish black grain-effect and satin chrome front bumper
- Heating and air conditioning system
- Z.E. Voice / audible warning for pedestrians
- Cruise control/speed limiter
- Rear parking sensor
- Passenger airbag / side airbags
- Front central armrest

- Overhead storage rack
- Height-adjustable driver's seat
- Fold-down passenger seat
- Armrest with storage console
- Radio with Bluetooth® / USB / jack with or without CD player
- R-Link navigation system
- Full panelled or glazed partition
- Full pivoting wire-mesh partition
- 1 panelled or glazed sliding right side door or 2 panelled or glazed sliding side doors*
- 2 glazed rear swing doors
- Glazed tailgate**
- Wooden floor / wood kit (floor + side panels)
- Side anchorage points in loading area
- Rubber rear loading mat
- Hinged rear roof flap

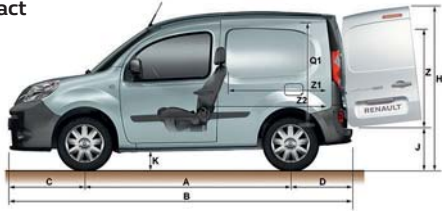

- Additional heating
- Occasional-use charging cable (6.5 m)
- Standard charging cable (6 m)

Configurations

Kangoo Express Compact

Kangoo Express

Kangoo Express Maxi

1 or 2 panelled sliding side doors

1 or 2 glazed sliding side doors **

1 or 2 panelled sliding side doors with fully glazed loading area

Black grain-effect front / rear bumpers and door mirror casings

Style Pack: black grain-effect / satin chrome two-tone front bumper with additional headlights and black headlight masks

Panelled asymmetrical rear doors

Glazed asymmetrical rear doors with wiper and demisting

Glazed tailgate*

*Except Kangoo Express Maxi and Maxi Z.E.
**Only 1 sliding side door possible on Kangoo Z.E.

Options

1. Pivoting wire mesh partition. Allows you to load long items as needed whilst fully protecting the driver.
2. Mobile partition on Kangoo Maxi Crew Cab. This partition can be removed in one motion to allow three people to sit in the back or free up a 3.6 m³ loading space for items measuring up to 2 m. **3. Tubular partition.** Ensures the driver's safety by protecting him or her against the load.
4. Passenger seat with flat floor fold-down function. Allows you to load items up to 2.89 m in length*. **5. Full partition.** Glazed or panelled, the partition fully isolates the loading space from the driver's position.

*On Kangoo Maxi version, 2.5 m on Kangoo Express and Z.E.

1. Electrically folding door mirrors. Especially useful in the city. **2. Sliding hinged rear roof flap.** The front-sliding hinged rear roof flap provides a 47 cm by 1 m opening, easily letting you transport bulky objects. **3. Central armrest.** This easy-to-access space offers passengers an extra storage compartment within arm's reach and added comfort. **4. Rain and light sensors.** The windscreen wipers automatically start and adjust their speed according to the intensity of the rain. **5. Three front seats*** (not available on Kangoo Maxi 5-seater): a driver's seat and a bench for two passengers. The middle seat is a back-up for occasional use. **6. Extended Grip* and Hill Start Assist.** Combined with Electronic Stability Control (ESC). Extended Grip is a traction control function that helps you out of difficult driving conditions (sand, mud or snow), while Hill Start Assist makes it easy to start on a slope.

* Not available on Z.E. range

Options

1.

2.

3.

4.

5.

1. The Renault R-Link connected multimedia system takes full advantage of TomTom Traffic Navigation, portable music, telephones, vehicle equipment control and access to the applications available from the R-Link Store. The system is controlled using a special CD-radio with controls on the front (dial and buttons). It also comes with voice recognition to control your telephone and navigation.

2. Automatic heating and air conditioning system. 3. Manual heating and air conditioning system. 4. R-Plug&Radio+ 2x 20W (Bluetooth®, USB, CD) with integrated display and steering wheel controls. 5. R&Go DAB Radio. The Connect R&Go DAB CD-radio provides access to four areas – Multimedia, Telephone, Navigation and Vehicle – in a user-friendly, intuitive manner. Play your music, manage your contacts, enjoy precise navigation, get information on your fuel consumption and use the Driving ECO2 functions... all of this is now possible. The radio also allows you to listen to digital broadcasts.

1. Perfect for manoeuvring, the **rear-view camera** shows an image of what's going on behind the vehicle on the R-Link navigation screen when equipped. It especially comes in handy when your Kangoo is fully panelled or fitted with a solid partition, giving you full control in your surroundings. **2. Roof panel rack.** With storage space above the windscreen, the roof panel rack is wide and deep enough to store a range of items. **3. Cruise control/speed limiter.** Lets you select a constant speed (cruise control function) or set a maximum speed (speed limiter function). **4. Z.E. Electric strip** as standard on all Kangoo Z.E. models, with option of removal at customer's request. **5. 15" Aria* alloy wheel rims.** **6. 16" Egeus* alloy wheel rims.**

* Not available on Kangoo Z.E.

Accessories

1. Steel roof rack. This roof rack is designed to fit the vehicle perfectly. It is robust and has been wind-tunnel tested and treated against corrosion. It allows you to transport loads of up to 100 kg with ease (the maximum permitted load includes the weight of the roof rack). A deflector eliminates all aerodynamic noise for added comfort. Available depending on the vehicle length. **2. Transverse roof bars** These roof bars are designed to fit the vehicle perfectly. Made from galvanised steel, they are corrosion-resistant. They have also been designed to limit aerodynamic noise. The bars are highly robust and can take loads of up to 95 kg (including the weight of the bars). **3. Standard towbar.** The standard towbar is designed for permanent use on the vehicle. It ensures impeccable safety for the equipment being towed. It is treated against corrosion and can withstand intensive use. 7- and 13-pin wiring harnesses are also available in the Renault Accessories range. **4. Swan-neck towbar.** Designed for intensive use, the swan-neck towbar is ideally suited for professional driving needs. It is treated against corrosion, stands up to professional usage and can easily be removed with tools. 7- and 13-pin wiring harnesses are also available.

1. Full wood kit. The wooden panels are custom designed. They provide optimum protection for the loading area and ensure it remains in good condition even with intensive use. The panels thereby avoid costs associated with restoring the vehicle for resale, which are much higher than the cost of a wood kit.

2. Plastic floor. This custom-made plastic container fits perfectly onto the floor of the loading area. Made from ABS plastic, it is ideal for transporting dirty items and can be cleaned very easily with a hose.

3. Window grilles. These custom-made window grilles help prevent break-ins whilst maintaining good rear visibility.

4. Front mud guards. These mudguards, available for the front and rear, protect the bodywork against flying gravel and mud.

Accessories

1. Seat covers. These seat covers offer effective protection of the original fabric. Made from textile or plastic-coated fabric, they are custom-designed and airbag-compatible.

2-3. Fabric mat and Novestra rubber mat. All Renault mats are equipped with Renault's original pre-fittings. They guarantee optimum driver safety. The fabric and rubber mats are highly resistant to wear and tear and thus perfectly suitable for businesses. The rubber mat is particularly recommended for activities which attract a lot of dirt (mud, sand, snow).

4. Fire extinguisher bracket. The fire extinguishers available in the Renault range can be fitted to this special bracket. Attached to the floor on the passenger side, it is crash-tested to guarantee the safety of the vehicle's occupants.

1.

2.

3.

1. Parking distance control. Available for the front or the rear, parking distance control makes manoeuvring easier. **2. Portable TomTom GPS.** This model, fitted with a 5-inch screen, offers two-in-one technology: GPS and Bluetooth® hands-free kit. It includes Europe maps with free updates for life. The pack includes a one-year subscription to Live services. A full range is available from your point of sale. **3. Car radio.** **Pioneer 4500 BT radio** equipped with multiple connectivity (front jack, USB port, iPod®/iPhone® compatibility and Bluetooth®). A full range is available from your point of sale.

Z.E. BOX

Z.E. CAR

Rediscover the pleasure of driving!

Discover all the benefits of the Renault Z.E. range: vehicles that are all-electric, completely smart, entirely connected, fully fun and with zero emissions⁽¹⁾. Select the version that best suits your needs, then use the range of options and accessories to customise it.

Z.E. BATTERY

Select the rental scheme that best meets your needs,

depending on your annual mileage and the length of time you wish to take it out for, and adjust it at any time, as and when your needs change⁽²⁾. Your battery lease means you are guaranteed a battery that is in perfect working order at all times, with sufficient charge on it, always above 75% of its initial capacity.

Z.E. CHARGING

Straightforward charging!

Thanks to the various charging systems available to you. Putting you in contact with an approved Z.E. Ready partner to have a charging point installed by a professional in your home or at your place of work.

Z.E. SERVICES

Take advantage of our full coverage.

Comprehensive breakdown assistance 24 hours a day, 7 days a week (including if you run out of power), transport solution for longer journeys, maintenance contracts and warranty extension to ensure your new electric lifestyle is as straightforward as possible.

(1) During use, not including wear and tear parts. (2) Up to three months prior to the planned end of your battery lease.

Renault Services. Serenity effect

Renault maintenance contracts

Do you want to save time and hassle?

Then scheduled maintenance is the choice for you.

There are times and periods during which your Renault needs special attention: periodic servicing, fluid top-ups, checking of wearing parts and their replacement if necessary, in keeping with manufacturer recommendations.

You get complete peace-of-mind:

- The expertise of the Renault network and the quality of original Renault parts.
- Greater value retention for your vehicle at resale.
- Cost-effective maintenance for your vehicle.

Warranty extension contracts

At Renault, in the period following the purchase of your new or second-hand car, we handle all of the repairs and replacements of any mechanical, electrical or electronic parts that may prove defective. The extended warranty prolongs the benefits of your manufacturer's warranty. You'll get even more peace-of-mind.

No need to keep an eye on the meter as you drive:

Drive with confidence. Benefit from a Manufacturer's Warranty for X years or XXX,000 km*: free parts and labour repairs, 24-hour breakdown assistance with repair or towing, Paintwork Warranty for X years with unlimited mileage and Anticorrosion Warranty for XX years with unlimited mileage.

- Whichever comes first, with unlimited mileage for the first two years.
- Your vehicle remains in the hands of the best network of experts.
- Genuine parts for all jobs.
- Warranty of up to seven years and/or 200,000 km.

Connected services

With Renault R-Link Evolution, named Europe's top multimedia system*, you can also enjoy services inside your car. Innovative and intuitive, it offers the essential functions you need today: stay connected to the outside world, benefit from driving aids to optimise your journey and some of the most high-performance safety warnings available.

Only the best:

- Navigation: maps pre-installed in your vehicle with free updates for the first year. If you want to extend your subscription, just download online from the R-Link Store.
- Traffic info: view traffic conditions on your route in real time.
- App catalogue: tailor your on-board experience by downloading new apps from the R-Link Store such as Coyote, Michelin, R-Sound Effect, rest time management, RSS feeds, etc.

Renault Pro+, the expert brand

Renault has been present in the commercial vehicle (CV) market for over a century, aiming to provide its commercial customers with appropriate and innovative solutions in terms of products and services. This is why we have been number one in Europe since 1998 and on the CV sales podium in several countries, from North Africa to Latin America.

Over the years, we have built up strong and sustainable relationships with our CV customers. Now is the time to make these relationships even clearer and to further consolidate them. This is why we have decided to create Renault Pro+, an expert brand dedicated to all users of commercial vehicles.

Beyond the existing products, services and commitments, Renault Pro+ aims to generate 'ingenious innovation', to drive forward 'intuitive experience' and to offer bespoke solutions to its customers. Our customers demand this of us... As professionals, we will understand each other.

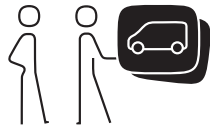

The specialised Renault Pro+ network

Within the Renault network, certain sales outlets are Renault Pro+ specialists. They meet specific commitments.

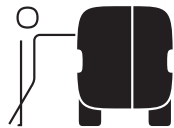

Specialists at your service

- A Commercial Vehicle specialised salesperson
- A dedicated After-Sales Advisor
- A reception area reserved for business customers

Decisions made easier

- Presentation of a comprehensive range of Commercial Vehicles
- Test drives without an appointment
- Quotations within 48 hours, including for coach-built vehicles

Your mobility guaranteed

- Expanded workshop times
- Servicing within 8 hours without an appointment
- Diagnosis within the hour
- Replacement vehicle in same category

The Renault network undertakes to:

- Respond to your online requests in under XX working hours.
- Guarantee you a test drive in a vehicle from the range of your choice, immediately or by appointment within XX working days.
- Keep you informed about the progress of your order until delivery.
- Deliver your vehicle on time and at the agreed price.
- Ensure you are not charged for any work carried out without your agreement.
- Provide a one-year parts and labour guarantee for all paid work carried out in our workshops.
