

RENAULT
Passion for life

New Renault CLIO

Irresistibly seductive

Seductive style

Sensual lines, dynamic profile, sculpted sides and assertive presence. From the first look, New CLIO attracts you with its dynamic and desirable style. With its tidy finishes, it combines modernity and robustness: C-shaped brand light, full LED lighting, finely integrated chrome finishes, door handles extending from glazing, new Valencia Orange metallic colour.

Configuration presented with options available subsequently.

A perfect smart cockpit

On the interior, every detail counts. New CLIO has undergone a revolution and is offering quality materials and finishes. With its new high-tech, driver-orientated cockpit, its cocooning seats and the MULTI-SENSE customisable ambient lighting, enjoy a driving experience which will awake your senses. Settle in to the future at the wheel of New CLIO, and stay ahead: large multimedia 9.3" touch screen, customisable driver screen and electric handbrake!

Driving pleasure and comfort on board

The New CLIO offers a large choice of engines. With the new TCe 130 engine combined with the EDC transmission with steering wheel paddles, New CLIO has top-level performances whilst ensuring reasonable fuel consumption.

Thanks to its dynamic chassis, and its direct and precise steering, no more boring roads!

The driver will not be the only one smiling on board: the suspension and soundproofing have been improved for everyone's comfort.

Finally, the Bose® audio system with its 9 speakers offers a rich and immersive musical experience.

Renault CLIO R.S. Line: stand out through sportiness!

New CLIO R.S. Line stands out with its sportiness, which it gets from its Renault Sport DNA. The exterior design sets the tone: sporty front bumper with F1 blade emblematic of R.S. Models, bee hive lower grille, Glossy Black insert on grille, 16 inch Boavista alloy wheel rims or 17 inch Magny-Cours diamond-cut wheels, rear end panel with spoiler and oval chrome exhaust finisher. This unique personality is summed up by the R.S. Line badge on the front wings and the boot door.

The cockpit confirms this sporty character with a carbon look enhanced by red contrast stitching: sport seats with strengthened side supports, perforated leather* sport steering wheel with double diamond, aluminium pedal unit, dashboard and seat belts brightened up with a red line. The black ceiling and the driver-focused high-tech cockpit complete this resolutely sporty and technological atmosphere. Passion stimulated by every detail.

* Bovine-sourced leather.

New Renault CLIO INITIALE PARIS, opt for refinement

New CLIO INITIALE PARIS' personality is expressed in the smallest of details by its sleek and elegant design. New full LED brand light, chrome radiator grille and exhaust pipe, shark antenna, Starry Black colour, exclusive 17" wheel rims, INITIALE PARIS badges... An exceptional identity that marks you as different.

On the inside enjoy a cocoon of comfort and elegance with its heated leather* steering wheel, Cognac contrast stitching on the dashboard and the refined look of the Diamond padded leather* seats. A unique experience on board.

* Bovine-sourced leather.

Smart Cockpit,
technology at your fingertips

Stay connected... in total freedom!

At the heart of the cockpit, the EASY LINK system offers the largest screen in its category, and is totally customisable. Perfectly integrated with the Renault EASY CONNECT universe, it all starts before you have even stepped inside. Thanks to the MY Renault smartphone application, geolocalise your car and be guided to it.

Once on board, the EASY LINK system, compatible with Android Auto™ or Apple CarPlay, gives you access to all your multimedia content in the blink of an eye.

The onboard navigation delivers a huge amount of information in real time: traffic density, danger or service stations on your journey.

As simple and effective as Google Maps: the Google address search! All you need is two or three key words to reach your destination, you do not have to know the exact address.

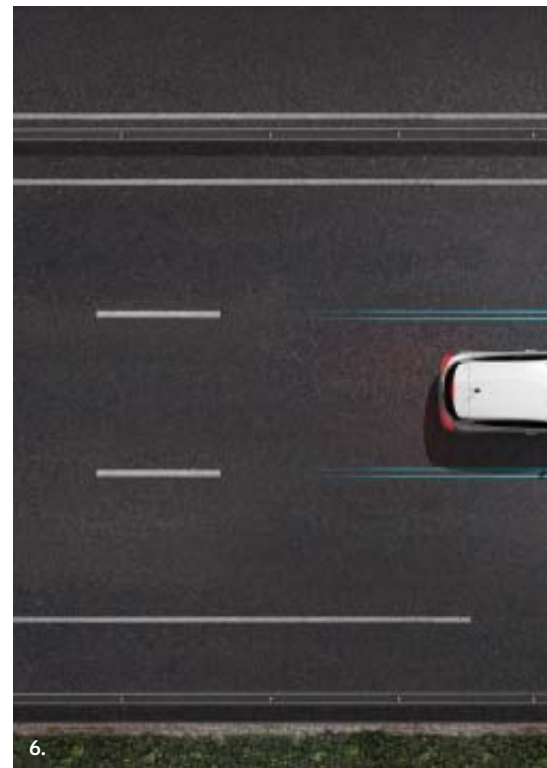

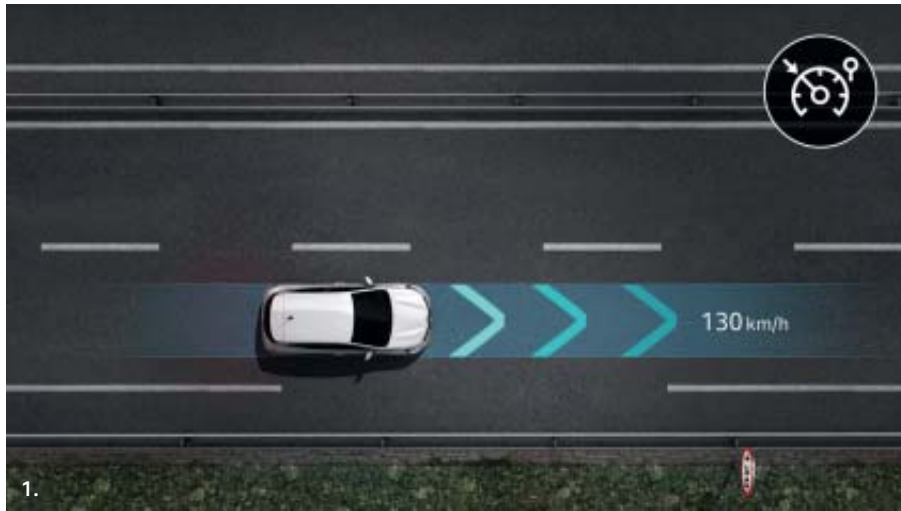

Thanks to the Auto-Update function, you can be sure that your system and TomTom mapping are automatically updated.

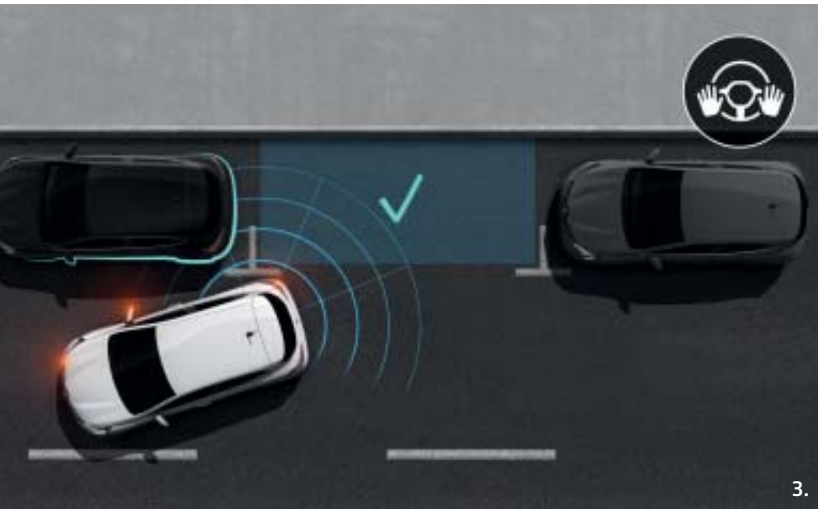

Finally, with the wireless smartphone charger, you can easily stay connected to your online world.

Android Auto™ is a trademark of Google Inc.

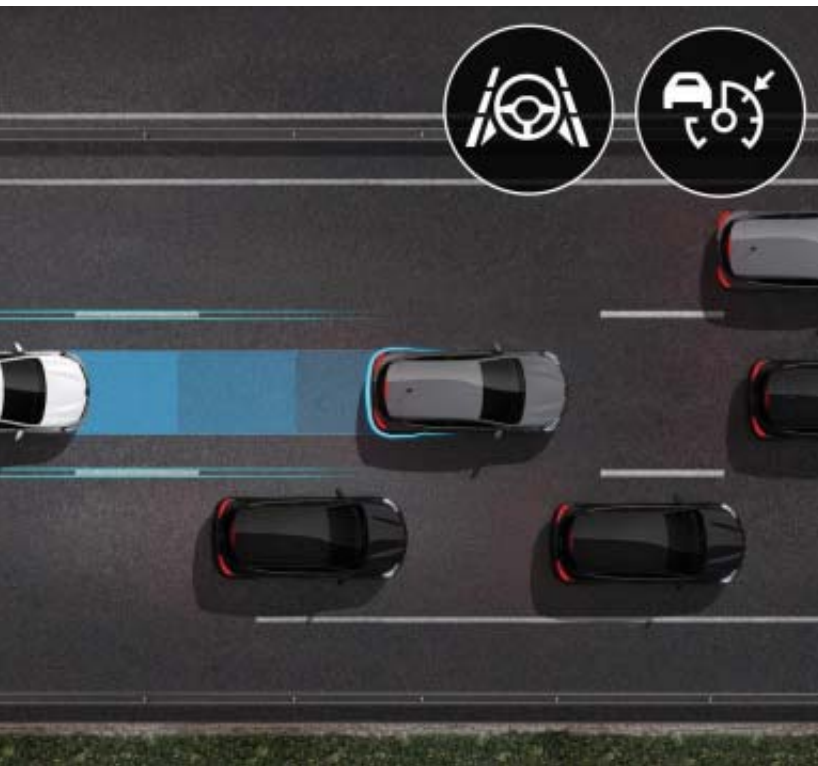

Apple CarPlay is a trademark of Apple Inc.

3.

Renault EASY DRIVE

The innovative technologies on board New CLIO are with you every second for a simplified drive.

1. Cruise control / speed limiter

Set your speed or your maximum speed. Steering wheel controls allow you to set parameters in a few instants.

2. Renault LED Pure Vision

New CLIO is equipped with powerful Full LED Pure Vision headlights and automatic main beam headlight activation for better visibility.

3. Hands-free parking

Let your New CLIO carry out a perfect parallel parking manoeuvre in the blink of an eye using the Easy Park Assist hands-free parking function. Parallel, perpendicular, angle... no space is too difficult for New CLIO!

4. 5. 360° camera

New CLIO is equipped with 4 cameras whose images reconstitute the vehicle's 360° direct environment. Execute your manoeuvres effortlessly and protect the irresistible style of New CLIO!

6. Motorway and traffic assistant

A unique innovation in the segment, New CLIO is capable of staying at the centre of its lane and managing its speed in line with the traffic until it comes to a complete standstill. This assistant gives you more peace of mind in your motorway journeys or in the event of dense traffic.

Optimal safety

New CLIO has the most modern technologies, providing you with optimal safety.

1. Automatic emergency braking

You can trust New CLIO. It constantly keeps an eye on traffic and associated risks. Sudden braking, a pedestrian crossing... the application alerts you and can even automatically activate emergency braking.

2. Lane keeping assist

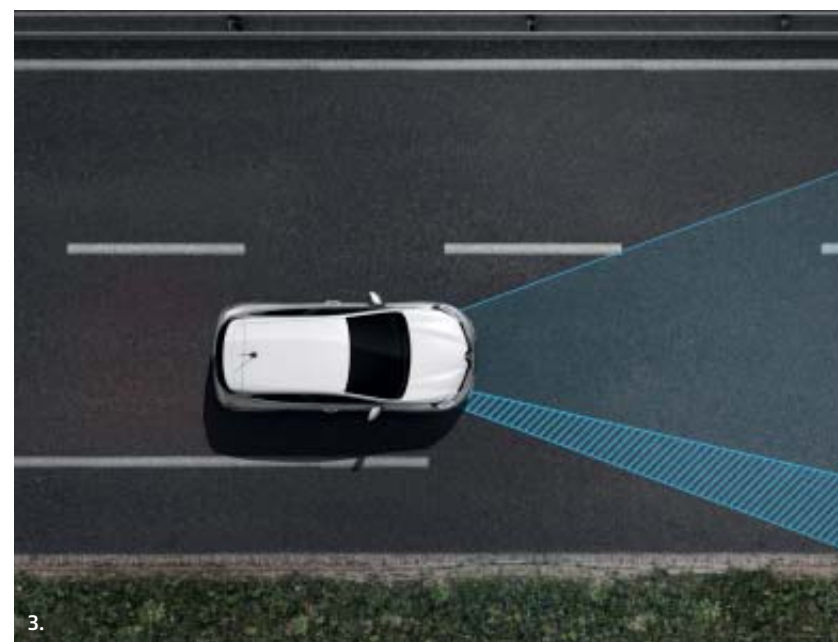

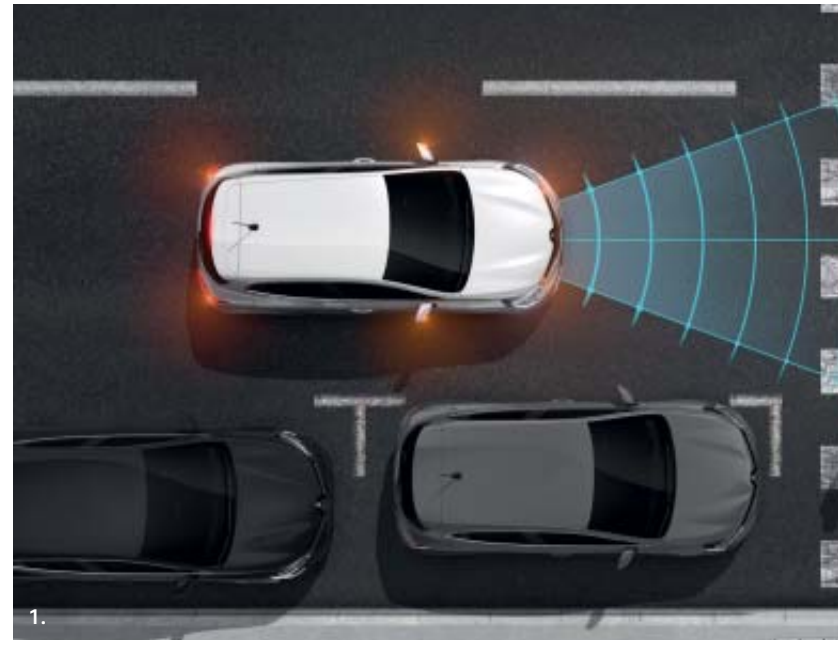

Prevention is the best kind of safety. That is why New CLIO offers, from the Life version, systems to warn you when you leave your lane and active assistance to stay in it.

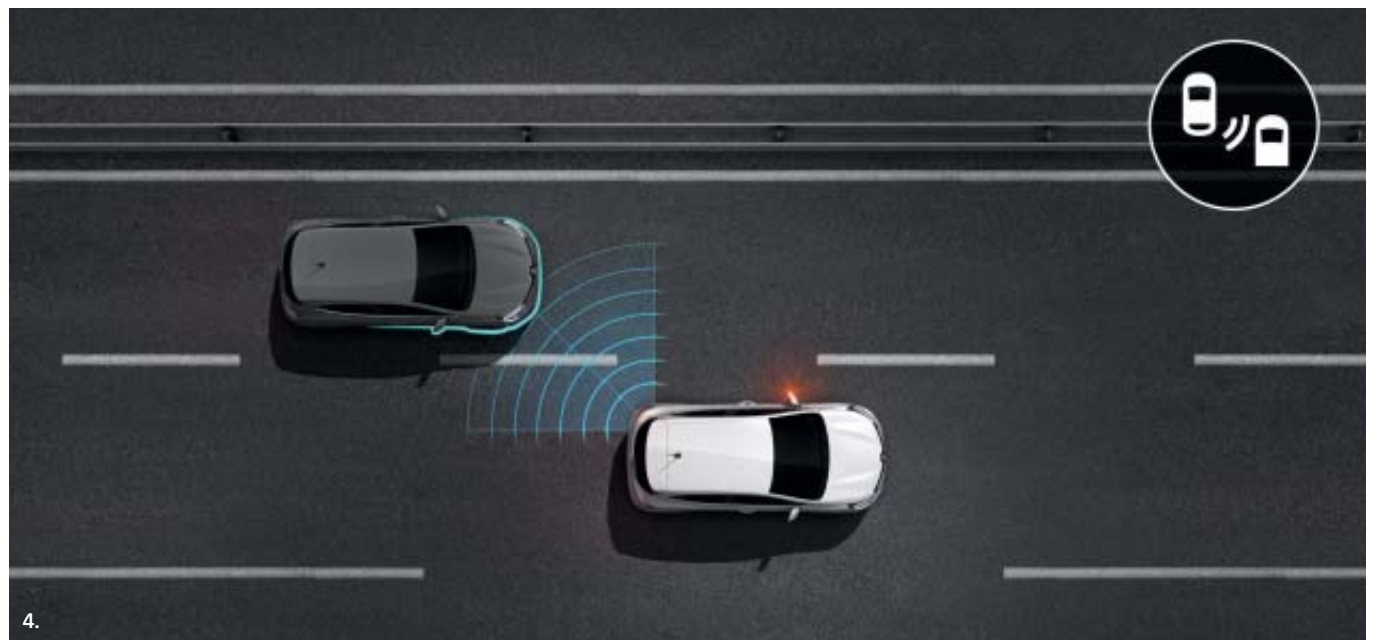

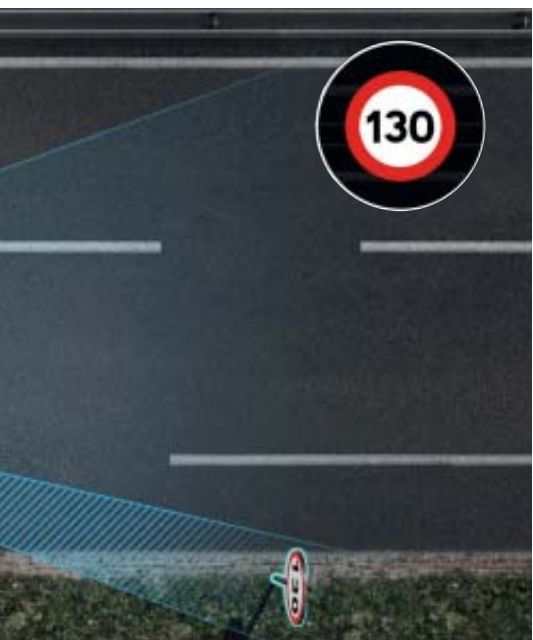

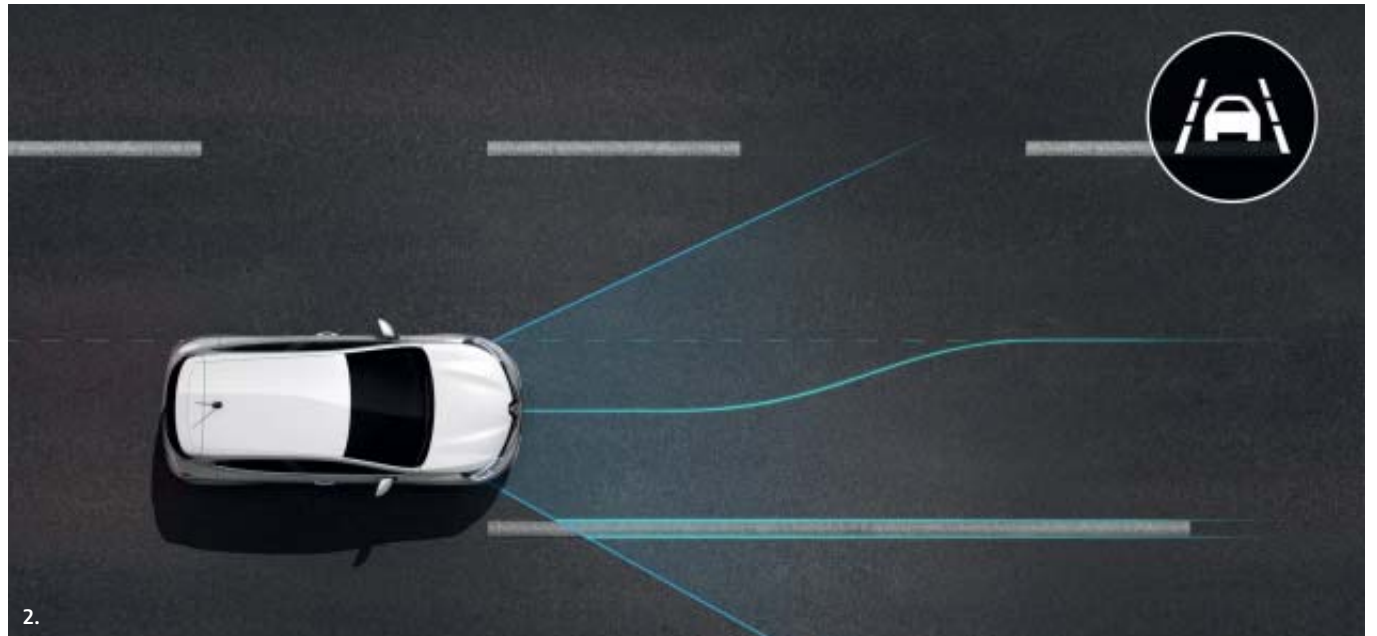

3. Road sign recognition

New CLIO informs you via the dashboard of speed limits using a camera which recognises road signs.

4. Blind Spot Warning

New CLIO detects the presence of any vehicle in or approaching your blind spot, and alerts you with a light signal in the door mirrors.

Accessories

1. Underbody courtesy lighting. Don't get lost again in a poorly lit carpark! When you approach the car or by merely pushing a button on the remote, New CLIO lights up automatically.

2. Shark aerial. Add a touch of sporty elegance to your New CLIO with this aerial, perfectly integrated into the shape.

3. Modular boot protection. Non-slip and waterproof, it is essential for protecting the boot of your vehicle and transporting bulky and dirty items!

4. Bodywork protection pack. Look after the paintwork of your New CLIO, for small impacts, scratches or repeated rubbing.

5. Armrest. Improves your driving comfort and is also an additional storage area.

Quality

“From the design stage in our studios to manufacture, to distribution via our network, we are guided by the search for quality”.

Laurens van den Acker – Senior Vice President of Renault Corporate Design

Renault CLIO, a rich history of passion

Generation after generation, Renault has had masters working on the design and manufacture of ever more attractive and high-performance models, equipped with innovative and ingenious solutions, original and in the spirit of the times. New CLIO is the most beautiful illustration of this.

With New CLIO, the brand strongly and passionately reaffirms its expertise and innovative spirit, recognised by all automotive professionals throughout its history. CLIO is the best selling French car in history, voted European car of the year twice, approved by millions of drivers who have been renewing their confidence in us since 1990. Over 30 years, CLIO has become more and more successful!

New CLIO, a controlled revolution

An emblematic model of the brand's know-how, CLIO has always been a pioneer: the first of the category to offer colour navigation (2001), the hands-free card and the Carminat TomTom system (2005) or the touch screen (R-Link in 2012) with Google connection.

New CLIO is still faithful to this know-how today. It innovates by offering the latest technological advances in the area of connectivity and driving assistance from the higher categories:

- Renault EASY CONNECT: a new generation connected experience.

Take advantage of a complete range of innovative solutions developed with our partners TomTom and Google, in order to make your life easier. The navigation is connected in real time for the search of addresses, the calculation of delays and information on fuel prices. With its Auto-Update service, the EASY LINK system of your CLIO and its mapping are always up to date.

- Renault EASY DRIVE: an easier and safer driving experience.

New CLIO provides a level of driving assistance which is unparalleled in its category, to ensure your safety and offer a more relaxed driving experience. The 360° camera, a result of the technologies of the Renault Nissan Alliance, will help you to protect your vehicle during urban manoeuvres. Another innovation, the Traffic and Motorway Assistant, offers you a refined driving assistance which will help you to reduce the stress of urban and motorway driving. These technologies were subjected to over 500,000 km of tests and validations.

New CLIO, a design in service of quality

New Renault CLIO is the fruit of the combined talent of the Renault engineers and designers. The designers of this new generation were keen to strengthen the vehicle's performance and reliability, and improve its resistance to the weather and miles travelled. Before it was sold, New CLIO had already covered over 1.5 million kilometres in all weather conditions and on all types of roads.

New CLIO offers a modern and seductive exterior and interior style, with particular care taken with quality in every detail. On the exterior, gaps between bodywork parts have been largely reduced and are more homogeneous thanks to the use of laser jigs in the factory. Much attention has been paid to the quality of the materials used on the interior, with the extended use of flexible materials with increased durability on the dashboard, the doors or the seat fabrics.

There has also been much progress with the screens built into New CLIO. They are inspired by smartphones, with a high level contrast and luminosity for optimal reading in all conditions.

Renault at your side

We are always at your side to make life easier and save you time on the maintenance of your Renault: online quotes and appointments, packages, maintenance contracts, insurance and assistance, personalised MY Renault programme... take advantage of our simple, rapid solutions tailored to your needs.

Your first steps

Find all the information you need:

- on our websites, product/service/finance offers, test appointments, etc.
- in our dealership network, meetings with our sales and technical teams.

Renault Service, 100% covered

Guard against the unexpected with our extended guarantees, insurance policies and Renault Assistance, there for you always.

MY Renault, day-to-day partner

Enjoy the benefits of a personalised web account with advice, offers, exclusive perks, reminders of the maintenance programme, upcoming appointments, etc.

Renault Service, no worries maintenance

Our Renault Service maintenance contracts offer you the benefits of a bespoke all-inclusive package.

Accessories, your custom Renault

Our range of accessories contains everything you need to make your car even more attractive, practical, comfortable and personalised.
